PROFESSIONAL SUMMARY

Professional software development specialist with background in creating innovative software solutions and optimizing systems for improved performance. Proven ability to collaborate effectively within team environments and adapt to evolving project requirements. Known for technical expertise in programming languages and strong commitment to achieving project goals.

WORK EXPERIENCE

SOFTWARE DEVELOPER, 02/2024 - CURRENT
Freelance - Kampala, Uganda (Remote)

Responsible for designing, coding, testing, and maintaining software applications to meet user and business needs. Identify customer demands, develop software solutions, and make improvements based on user feedback. Collaborate with other professionals such as technical writers and graphic designers, and use development tools to manage the process, version control, and quality.

FULL STACK PHP DEVELOPER, 10/2022 - 12/2024
Orinoco Global - Lagos, Nigeria (Remote)

Responsible for working on both front-end and back-end development processes, designing, developing, and maintaining fully-fledged and functioning platforms with databases or servers that do not need other third-party applications to build an entire system from scratch. Collaborate with other engineers, developers, designers, and project managers to bring web applications to life

WEB DEVELOPER, 08/2021 - 10/2022
Adaltech - Lagos, Nigeria

Responsible for designing, creating, and maintaining websites to ensure they meet user expectations by looking good, running smoothly, and offering easy access points with no loading issues or error messages. Handle the technical aspects of a website, including its performance and capacity to handle traffic without crashing.

Higher Education Certificate: Humanities, 05/2024
Cavendish University Uganda - Kampala, Uganda

- Degree Awarded with Second Class Upper

SKILLS

- Problem-solving
- Object-oriented programming
- Web application development
- SQL expert
- JavaScript | PHP
- Full-stack development
- Programming
- Software Development
- Git Proficiency
- Front-end Technologies
- Core Java

CODING, RESEARCH, MUSIC, FOOTBALL

- Coding: Passion for problem-solving, building tools that make life easier. From scripting quick solutions to tackling complex projects, always learning new frameworks and techniques.

- Research: Research is my curiosity in action—digging into data, analyzing trends, and uncovering insights. Whether it's technology or market trends, synthesizing information to answer big questions and spark new ideas.

- Music: Music is my creative outlet. I play music, blending genres like reggae & blues, Hiphop or Afrobeat. It's about expressing emotions and finding flow, whether I'm jamming alone or collaborating with friends.

- Football: Football is pure adrenaline—strategy, teamwork, and skill in motion. I'm glued to matches, cheering for underdogs and admiring tactical brilliance. Playing or watching, it's about the thrill of the game and the unity it brings.
